

Active Times Table Homework 6x, 7x, 8x Football Times Tables

Practise the 6x, 7x and 8x tables by playing football!

One player – Find a safe space to kick a ball against a wall. Say a times table question and kick the ball. Answer the question before controlling the ball. Repeat.

Two player – A parent or a friend says the questions and passes you the ball. You say the answer before controlling the ball. Pass back and repeat.

Can you make it harder by mixing the questions? Can you encourage your parents, grandparents and siblings to join in too?

Challenge – Ask your adults to post to the Links SSP Twitter page @LinksSSP and @movemoreshffield using #LinksActiveHomework
