

Active Times Table Homework 9x, 11x & 12x Star jumps Times Tables

Practise the 9x, 11x and 12x tables by doing Star jumps.

One player – Find a space and do a star jump. Say your times table each jump.

Two player – A parent or a friend says the questions and you do a star jump. You say the answer before landing.

Can you make it harder by mixing the questions? Can you encourage your parents, grandparents and siblings to join in too? Can you take a photograph or video of you taking part?

Challenge – Ask your adults to post to the Links SSP Twitter page @LinksSSP and @movemoresheffield using #LinksActiveHomework
